>> What Is DIM?

The Data Interchange Module cryptocurrency is a peer-to-peer, quantity committed, secure, private and robust digital medium of exchange. There are two versions:

DIMCOIN is a speculative digital coin. They contain high confirmation speeds and are immune to fraudulent activities.

The **DIM Currencies** are equivalent to the value of the fiat currencies that users exchange with. They will be utilised as a medium of exchange in the DIM Ecosystem.

>> ICO

Crypto-financing via an initial coin offering (ICO) is the best form of financing to create a decentralised ecosystem.

The DIMCOIN ICO will be held at www.dimcoin.io, with the **countdown** beginning from the 1st - 30th of June 2017. The **Pre-ICO** will be from 1st of July until the 15th of July*. The **ICO** will be from 16th of July to the 27th of August 2017. Unpurchased tokens at the end of the ICO will be given to the DIMCOIN Foundation. If the tokens are all purchased before the end of the ICO, investments will still be accepted. Supporters will receive DIMCOIN equivalent to the size of their investment in place of DIM TOKENS.

*starts at 12:00 pm CET, ends at 23:59 pm CET
